Meaningful Things I Did During My Summer Vacation

Before summer vacation, I planned to do a lot of things during the holidays. I joined a soccer club because I wanted to learn to play soccer.

During summer vacation, I practiced more to improve my soccer skills. I also went to my grandma's house because I missed her a lot. I stayed at her house for several days.

I helped with the housework too. Besides taking care of me, my mother had a lot of work. She was really tired so I wanted to help her in the holidays.
