

My Summer Vacation

During my summer vacation, my whole family went to Shenzhen. My uncle took my twin sister and me to a horse riding training centre to learn horse riding. After putting on a riding jacket, a helmet, boots and gloves, the riding instructor put me on the back of a reddish-brown pony. He led the pony and taught me how to make the pony turn right and left, how to gallop and how to halt. The pony was obedient.

When we finished, we took the pony into the stable and rewarded him with some carrots. I was happy and excited because it was my first time on the back of a pony. It was really a wonderful experience for me!
