

My Summer Vacation

Yesterday, my cousin, my mum, my sister, my friend Mandy and I went to The Peak.

First, we took a bus to Bank of China Building. Then we walked to the Peak Tram. We saw the tram in front of us. After that, we went to the ticket office to buy tickets. However, my mum bought one extra ticket by mistake, so we needed to wait for a few more minutes because my mum had to cancel the extra ticket and get a refund. While we were waiting, we saw that a lot of people were waiting, too. Finally, we could take a ride on the Peak Tram. The climbing angle of the Peak Tram is 45 degrees.

When we went to The Peak, the first thing we did was go to Madame Tussauds Hong Kong. We saw a lot of celebrities' wax figures and did some activities there.

At the end of the day, we bought some souvenirs and left The Peak. I hope we can go there again!
