

What a Wonderful Holiday

During this summer vacation, I visited my grandparents' farm with my family. We left the city life to enjoy the country life.

My sister and I woke up early in the morning to feed the chickens and ducks. My grandparents owned about 18 chickens and 12 ducks. We also picked fresh eggs so we could cook them for breakfast. The eggs were delicious!

In the evening, my sister and I went swimming in a lake with the other children who lived nearby. We could jump into the lake to cool off. We also picked fresh red berries and vegetables like carrots and lettuce.

I think this summer vacation was quite meaningful because I enjoyed the wonderful nature!
